RISE 360+ Training Syllabus

In this one day course, you’ll learn and build complete modules using Rise 360, as well as supplement these modules with additional content using the Articulate® 360 tools - Content Library 360, Peek 360, and Replay 360. You’ll learn which tool to use when, and walk away with a deeper understanding of the award-winning Articulate® suite of tools.

Participants

Training sessions are designed for a variety of skill levels. All participants should have basic computer skills and familiarity with some of the more common user interfaces (such as ribbon technology and browser windows). All 4 days of training are interactive and hands-on. Therefore, participants are required to bring a PC (or Mac with Windows) with an active Articulate® 360 subscription or trial installed.
