ARTICULATE® RISE 360+
TRAINING SYLLABUS

This interactive, comprehensive one-day course provides everything you need to create compelling e-learning with Rise 360. You’ll not only build complete courses using Rise 360, but also supplement them with additional content using the other Articulate® 360 tools: Content Library 360, Peek 360, and Replay 360. You’ll learn which tool to use in what situation and walk away with a deeper understanding of the award-winning Articulate® 360 suite of tools.

Training sessions are designed for a variety of skill levels. All participants should have basic computer skills and familiarity with some of the more common user interfaces (such as ribbon technology and browser windows).

Since the training is interactive and hands-on, participants are required to bring a PC (or Mac with Windows) with an active Articulate® 360 subscription or trial installed.

A PC (or Mac with Windows) with an active Articulate® 360 subscription or trial installed.

For Windows users: articulate.com/support/article/Combined-Tech-Specs-for-All-Articulate-360-Apps

For Mac users: articulate.com/support/article/Articulate-360-FAQs-Working-on-a-Mac

Browser requirements:
Latest version of Microsoft Edge, Google Chrome, Firefox, or Safari
Internet Explorer 11 is not supported for authoring in Rise 360

Please verify that you have the appropriate software installed and working properly on your computer before attendance. There is not adequate time to download and install software the day of training.

NOTE: Your computer will need to be able to wirelessly connect to the internet to access Content Library 360, Review 360, and to access Rise 360.
Course Outline

Introduction to Rise 360
User Interface Review
Getting Started
  - Introduction to Real Content, Templates, and Lessons
Starting from a Blank Course/Microlearning
  - Creating an Outline of Sections and Lessons
  - Adjusting Settings and Themes
Exploring the Blocks
  - Introduction to Blank Lessons, Templates, and Quizzes
