

ARTICULATE® STORYLINE 360 TRAINING SYLLABUS

Held in our virtual classroom, this interactive, comprehensive eight-session course provides everything you need to create compelling e-learning with Articulate® Storyline 360.

BASIC STORYLINE 360, SESSION 1 THRU 4

This 4-session virtual training provides everything you need to begin building highly-interactive e-learning modules with Storyline 360 that can be published and delivered to meet a variety of needs and play on a variety of devices.

ADVANCED STORYLINE 360, SESSION 5 AND 6

This 2-session virtual training is designed for those who have already attended the Basic Articulate® Storyline 360 training, or have mastered those skills. In the Advanced training, we'll explore even more options to help take your courses to the next level. We teach a practical approach for using Conditional Triggers and Variables to help design complex learning modules. You'll also get to experiment with creative interactions using dials and sliders, and explore the use of motion and shape intersection triggers that make motion paths the perfect tool for unique presentations and gaming.

RISE 360+, SESSION 7 AND 8

Our 2-session virtual instruction is dedicated to Rise 360. You'll learn and build complete modules using Rise 360, as well as supplement these modules with additional content using the Articulate® 360 tools - Content Library 360, Peek 360, and Replay 360.

For more information please see the syllabus at the following link: [RISE 360+ Training](#)

PARTICIPANTS

Training sessions are designed for a variety of skill levels. All participants should have basic computer skills and familiarity with some of the more common user interfaces (such as ribbon technology and browser windows).

Participants will be joining the session with GoToWebinar. Please visit <https://support.logmeininc.com/gotowebinar/system-check-attendee> in order to test your system compatibility prior to the session. Microphones will be muted throughout the session, but questions can be asked via the question pod in GoToWebinar.

DURATION

16 hours of live instruction, divided into eight sessions, 2 hours each session. Application exercises are assigned as homework at the end of each session and online solution sets are provided.
